REQUIREMENT 3

DURING THE JUNIOR YEAR OR UPON DECLARING FOOD SCIENCE AS A MAJOR, STUDENTS ARE STRONGLY ENCOURAGED TO SELECT ONE OF THE FOLLOWING OPTIONS TO ENHANCE CAREER PREPARATION (STUDENTS IN FOOD INDUSTRY MANAGEMENT TRACK MUST TAKE 1 CREDIT HOUR OF NDFS 399R TO FULFILL THIS REQUIREMENT).

A. Choose a research topic and faculty mentor. Working in a research laboratory for 10-20 hours per week over the course of eight months, the student has daily contact with graduate students, technicians, and fellow undergraduate colleagues and frequent interactions with a faculty mentor. Student research often leads to participation in a publication and/or a presentation at a professional meeting. NDFS 494R credit is available.

B. Produce a senior thesis in collaboration with a faculty mentor, derived primarily from library study that extensively explores the relevant questions. The thesis is written in the format of a scientific review paper. NDFS 494R credit is available.

C. Work in an approved, faculty-supervised summer internship with a food company (generally the internship does not include study abroad). NDFS 399R credit is available.

Food science addresses the conversion of raw agricultural products into a nutritious, convenient, and economical food supply. Most of the food products available in grocery stores were developed, produced and tested by food scientists. Students graduating in Food Science are well prepared for immediate employment in
the food industry. The technical track curriculum also provides excellent preparation as a premedical, predental or other preprofessional major. With one additional credit hour, students graduating in the technical track are able to obtain a minor in chemistry. Students pursuing the management track are eligible to apply for a business minor and are well prepared for graduate studies in a Master of Business Administration (MBA) program.

**PRACTICAL EXPERIENCE AND INTERNSHIPS:**

Students can get hands-on experience working several semesters with faculty on research projects. Summer work opportunities are available with many food companies in numerous cities. The department has developed ongoing summer internships with several food companies.

**PROFESSIONAL ASSOCIATION:**

BYU’s food science technical track curriculum has been reviewed and approved by the Institute of Food Technologists (IFT), the professional society of food scientists.

**HONORARY SOCIETIES AND CLUBS:**

Students and faculty interact in the various social, service and career-related activities of the Food Science Club. The Food Science Club is a student chapter of IFT and participates in the statewide IFT Bonneville Section, which helps students develop a network of professional contacts. Students may also participate in Food Science College Bowl and other student competitions sponsored by IFT.

**CAREERS:**

Food Science provides excellent career prospects in the worldwide, multibillion dollar food industry. The food industry is consistently looking for graduates to fill all of the unique and challenging opportunities available. Potential careers include:
