**THE DISCIPLINE**

The Elementary Education program prepares teachers who, having gained their own liberal education, help elementary school age children learn by improving the teaching they receive in the home, school, church, and community. The program provides the opportunity for prospective teachers to learn about the culture of the elementary school, develop a solid foundation in basic principles of teaching and learning that originate in educational theory and research, and become proficient in systematically applying those basic principles.

**CAREERS**

A degree in Elementary Education leads to a kindergarten through grade 6 (K-6) teaching license. Students in the major are licensed and qualified to teach grades K-6 in public and private schools.

**ADMISSION TO THE PROGRAM**

The Elementary Education program accepts all students who meet the admission requirements. Students who are interested in the program should meet with the Education Advisement Center (350 MCKB) to declare the pre-major and review the admission requirements.

Apply to the program by October 1 for Winter semester or February 15 for Fall semester.

**MAP DISCLAIMER**

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
