THE FOLLOWING COURSES ARE STRONGLY RECOMMENDED:
AR TED 326 - Art for Elementary Teachers
BIO 100 - Principles of Biology
ENGL 313 - Expository Writing for Elementary Education Majors

THE DISCIPLINE:
Elementary Education prepares teachers who, having gained their own liberal education, help elementaryschool-age children learn by improving the teaching they receive in the home, school, church, and community. In the Elementary Education teacher preparation program, students enhance their thinking abilities, build their confidence in exploring new ideas, and become selfmotivated, independent learners.

The program provides the opportunity for prospective teachers to learn about the culture of the elementary school, develop a solid foundation in basic principles of teaching and learning that originate in educational theory and research, and become proficient in systematically applying those basic principles.

MAP DISCLAIMER
While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
