THE DISCIPLINE

The Early Childhood Education program prepares teachers who, having gained their own liberal education, help preschool, kindergarten, and primary grade school age children learn by improving the teaching children receive in the home, school, church, and community. The program provides the opportunity for prospective teachers to learn about the culture of young children, develop a solid foundation in basic principles of teaching and learning that originate in developmental theory and research, and become proficient in appropriate practices to implement those basic principles in practical settings.

CAREERS

A degree in Early Childhood Education leads to a kindergarten through grade 3 (K-3) license. Students in the major are licensed and qualified to teach grades K-3 in public and private schools. Early Childhood Education majors are also qualified to teach preschool, although licensure is not required in all states.

ADMISSION TO THE PROGRAM

The Early Childhood Education program accepts all students who meet the admission requirements. Students who are interested in the program should meet with the Education Advisement Center (350 MCKB) to declare the pre-major and review the admission requirements. Apply to the program by October 1 for Winter semester or February 15 for Fall semester.

MAP DISCLAIMER

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
