**THE DISCIPLINE:**

Brigham Young University’s baccalaureate nursing program prepares general clinicians with the knowledge, skills, leadership abilities, and values commensurate with professional nursing practice. Nursing education builds on the sciences, humanities, and religious studies to develop the strong theoretical and practical base necessary to understand and meet the needs of people in various health care settings. Learning comes alive as students move from the classroom through the clinical simulation laboratory to actual patient care. Students assess, diagnose, and treat actual and potential human responses in an effort to promote, restore, or maintain health. Baccalaureate graduates develop their ability to be sensitive to the welfare of others, communicate effectively, evaluate research findings, think critically, solve problems, and utilize appropriate technology as they provide quality nursing care across the lifespan to diverse individuals, families and communities/populations.

**CAREER OPPORTUNITIES:**

Graduates have career opportunities in various healthcare settings. Those include but are not limited to case management, community health, critical care, discharge planning, emergency/trauma, environmental health, forensics, gerontology, home health/hospice, maternal/newborn, medical/surgical, oncology, orthopedics, pediatrics, perioperative, psychiatric, public health, rehabilitation, and school nursing.

**GRADUATION REQUIREMENTS:**

To receive a BYU bachelor’s degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education (See the University Core section of the catalog for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A cumulative GPA of at least 2.0.

**FINANCING:**

Many students work during the nursing program. However, due to the rigorous nature of the program, we highly recommend students work no more than 15 hours per week. Some students find employment as research/teaching assistants, in on-campus labs or in other summer employment opportunities. Students can apply for scholarships and financial aid. Scholarship and financial aid information is available in the Nursing Advisement Center, (801) 422-4173.

**STUDENT ORGANIZATION:**

The Student Nurses Association (SNA) is an active student organization providing activities and service opportunities. See their website click here or contact the SNA for more information at byusna@gmail.com.

**CLINICAL ASSIGNMENTS AND TRANSPORTATION:**

Didactic courses are taught in Provo. Clinical experiences are generally in agencies throughout the Wasatch Front. Clinical experiences vary and students will be asked to attend clinical during days, nights and weekends. Visits to agencies and client homes are also required. To achieve the best possible clinical education, students will need to travel throughout their course work. Access to a car is highly recommended. Students are responsible for their own transportation. Multi-cultural and international clinical experiences are also available.
