**The Individual and Society**

| American Heritage                     | 1-2  | 3.0-6.0 | from approved list |
| Global and Cultural Awareness          | 1    | 3.0     | from approved list |

**Skills**

| First Year Writing                          | 1    | 3.0     | from approved list |
| Advanced Written and Oral Communications   | 1    | 3.0     | CHEM 391*          |
| Quantitative Reasoning                     | 1    | 4.0     | MATH 112* or 113*  |
| Languages of Learning (Math or Language)   | 1    | 4.0     | MATH 112* or 113*  |

**Arts, Letters, and Sciences**

| Civilization 1                           | 1    | 3.0     | from approved list |
| Civilzation 2                            | 1    | 3.0     | from approved list |
| Arts                                      | 1    | 3.0     | from approved list |
| Letters                                   | 1    | 3.0     | from approved list |
| Biological Science                        | 1    | 3.0/4.0 | CHEM 481M* or BIO 130* |
| Physical Science                          | 2    | 7.0     | CHEM 111* and PHSCS 121* |
| Social Science                            | 1    | 3.0     | from approved list |

**Core Enrichment: Electives**

| Religion Electives                       | 3-4  | 6.0     | from approved list |
| Open Electives                           | Variable | Variable | personal choice |

*THESE CLASSES FILL BOTH UNIVERSITY CORE AND PROGRAM REQUIREMENTS (21-22 hours overlap)*

#### Graduation Requirements:

- Minimum residence hours required: 30.0
- Minimum hours needed to graduate: 120.0

### Suggested Sequence of Courses

#### FRESHMAN YEAR

**1st Semester**

- Open Electives: 2.0
- CHEM 111* (F): 4.0
- First-year Writing or A HTG 100: 3.0
- MATH 112 (WSpSu): 4.0
- Religion Cornerstone course: 2.0

Total Hours: 15.0

*With department approval, CHEM 105 may be substituted for CHEM 111.*

**2nd Semester**

- First-year Writing or A HTG 100: 3.0
- CHEM 112* (W): 3.0
- CHEM 113* (FW): 2.0
- CHEM 201 (FWSp): 0.5
- MATH 113 (FWSpSu): 4.0
- Religion Cornerstone course: 2.0

Total Hours: 14.5

*With department approval, CHEM 106 may be substituted for CHEM 112; CHEM 107 for CHEM 113.*

#### SOPHOMORE YEAR

**3rd Semester**

- CHEM 227 (FSp): 4.0
- BIO 130 (FW): 4.0
- PHSCS 122 (FWSpSu): 3.0
- CHEM 351M* (F): 3.0
- Religion Cornerstone course: 2.0

Total Hours: 16.0

*CHEM 351 may be substituted for CHEM 351M.*

**4th Semester**

- CHEM 352M* (W): 3.0
- CHEM 354* (FWSp): 2.0
- PHSCS 123 (FWSp): 3.0
- Religion Cornerstone course: 2.0
- STAT 201 (FW): 3.0
- CHEM 497R or open electives: 1.0

Total Hours: 14.0

*CHEM 352 may be substituted for CHEM 352M; CHEM 353 may be substituted for CHEM 354.*

**Note:** CHEM 498R is a research capstone class. Typically, enrollment in CHEM 498R follows enrollment in CHEM 497R. Both courses give students an opportunity to be mentored in a faculty’s research lab and receive class credit. Permission from faculty to enroll in either course is required. Contact department office for specific details.

#### JUNIOR YEAR

**5th Semester**

- CHEM 391 (FW): 3.0
- CHEM 481M* (F): 3.0
- PHSCS 220 (FWSpSu): 3.0
- CHEM 497R or open elective: 1.0
- Civilization 1: 3.0
- Social Science: 3.0

Total Hours: 16.0

*CHEM 481 may be substituted for CHEM 481M.*

**6th Semester**

- CHEM 482 (W): 3.0
- CHEM 468 (W): 3.0
- PWS 340 (FW): 3.0
- CHEM 497R or open elective: 1.0
- Civilization 2: 3.0
- Religion Elective: 2.0

Total Hours: 15.0

#### SENIOR YEAR

**7th Semester**

- CHEM 489 (F): 3.0
- CHEM 584 (F): 3.0
- CHEM 594R (FW): 0.5
- PD BIO 360 (FWSp) or other Requirement: 3.0
- CHEM 498R or other Requirement: 4.0
- Global and Cultural Awareness: 3.0
- Religion Elective: 2.0

Total Hours: 15.5

**8th Semester**

- CHEM 485 (FW): 1.0
- CHEM 586 (W): 3.0
- CHEM 498R or other Requirement: 2.0
- Arts: 3.0
- Letters: 3.0
- Religion elective: 2.0

Total Hours: 14.0
**BS in Biochemistry (692826)**

**2020-2021 Program Requirements (77 Credit Hours)**

**REGISTRATION ADVISEMENT**

We want to assist students in their academic pursuit toward an undergraduate degree. Students are encouraged to complete an average of 15 credit hours each semester or 30 credit hours each year, which could include spring and/or summer terms. Taking fewer credits substantially increases the number of semesters to graduate.

New students should attend the chemistry and biochemistry session during New Student Orientation, where they can meet with a faculty advisor and review their planned registration. Transfer or mid-year incoming students should meet with an advisor prior to the add/drop deadline of their first semester, usually after the first week of class.

The department recommends a review of progress and planned registration with a faculty advisor in the semester when 30, 60, and 90 hours are completed. However, academic advisement is available to all majors at any point in their academic career. Contact the department advisement office to schedule an appointment with a faculty advisor: in person C104 BNSN; by phone 801-422-6269; by email suemort@chem.byu.edu or coffice@chem.byu.edu

**THE DISCIPLINE**

The Biochemistry Bachelor of Science degree provides excellent preparation for students preparing for health-related fields (medicine, dentistry, veterinary medicine) or for those who desire an advanced degree (MS or PhD) in biochemistry, molecular biology, or the health sciences. Chemists and biochemists study the fundamental processes that govern the natural world, including atomic structure and how atoms interact to form molecules and materials. They study the mechanisms of chemical processes, including those that underpin living systems such as the transfer of information from DNA to RNA to proteins. They work to develop simplifying models (theories) that permit the correlation and explanation of observations about the behavior of life to the structure of rocks and minerals.
Chemistry and biochemistry provide an essential foundation for the medical sciences, engineering (especially chemical engineering), electronics, energy, environmental sciences, materials science, pharmacy, and virtually all manufacturing processes.

Chemistry and biochemistry are active branches of science that are vital to human existence. Inasmuch as the field embraces all aspects of the material world, it is subdivided into five areas of interest. Examples of these diverse areas include the regulation of protein synthesis, cellular signal transduction at the molecular level and proteomics (biochemistry), design and synthesis of medicinal compounds, catalysts and polymers (organic chemistry), design and synthesis of new molecular structures and materials (inorganic chemistry), spectroscopic study of energy transfer and molecular structures (physical chemistry), and analysis of medicinal compounds, biological materials, and contaminants or trace elements found in the environment (analytical chemistry).

Chemistry and biochemistry involve far more than test tubes and beakers. They include sophisticated methodologies such as recombinant DNA technology, working with a variety of instruments such as mass spectrometers, calorimeters, chromatographs, ultracentrifuges, lasers, X-ray diffractometers, electron microscopes and nuclear magnetic resonance spectrometers, all of which are used by undergraduate chemistry and biochemistry students at BYU. Computers also play an important role in these disciplines, with applications ranging from simulation of molecules and their interactions to the collection and analysis of data. The chemistry and biochemistry curricula are both rigorous and intellectually rewarding.

CAREER OPPORTUNITIES

Graduates in chemistry and biochemistry obtain positions in education and many different industries, performing analysis, synthesis, characterization, observation, and modeling. Those who work hard, are creative, and have intellectual curiosity are in particular demand. The discipline also provides an excellent preprofessional course of study for those interested in medicine, dentistry, law, and business.
