

BS in Environmental Science (285824) MAP Sheet

Life Sciences, Plant and Wildlife Sciences

For students entering the degree program during the 2017-2018 curricular year.

University Core and Graduation Requirements				Suggested Sequence of Courses			
University Core Requirements:							
Requirements	#Classes	Hours	Classes				
Religion Cornerstones				FRESHMAN YEAR			
Teachings and Doctrine of The Book of Mormon	1	2.0	REL A 275	<u>1st Semester</u>			JUNIOR YEAR
Jesus Christ and the Everlasting Gospel	1	2.0	REL A 250	PDBIO 120			<u>5th Semester</u>
Foundations of the Restoration	1	2.0	REL C 225	Chemistry elective	3-4.0		Arts or Letters elective
The Eternal Family	1	2.0	REL C 200	1st Year Writing or American Heritage	3.0		BIO 350
The Individual and Society				Quantitative Reasoning (if needed)	3.0		Major electives
American Heritage	1-2	3-6.0	from approved list	Religion Cornerstone course	2.0		PWS 365
Global and Cultural Awareness	1	3.0	from approved list	Total Hours	13-14.0		PWS 366
Skills				<u>2nd Semester</u>			Religion elective
First Year Writing	1	3.0	from approved list	A HTG 100 or 1st Year Writing	3.0		Total Hours
Advanced Written and Oral Communications	1	3.0	ENGL 316 recommended	PWS 150	3.0		16.0
Quantitative Reasoning	1	3-4.0	from approved list	Chemistry elective	2-3.0		<u>6th Semester</u>
Languages of Learning (Math or Language)	1	3-4.0	MATH 112, or 119 or STAT 121 recommended	PWS 282, 283	4.0		Adv. Written & Oral Communication elective
Arts, Letters, and Sciences				Religion Cornerstone course	2.0		Major electives
Civilization 1	1	3.0	from approved list	Total Hours	14-15.0		PWS 375
Civilization 2	1	3.0	from approved list	SOPHOMORE YEAR			Religion elective
Arts	1	3.0	from approved list	<u>3rd Semester</u>			Social Science elective
Letters	1	3.0	from approved list	Civilization 1 elective	3.0		Total Hours
Biological Science	1	3.0	PWS 150	MATH 112 or STAT 121 (Lang. of Learning)	3-4.0		17.0
Physical Science	2	7.0	CHEM 105*, plus one course from approved list	PWS 303	3.0		SENIOR YEAR
Social Science	1	3.0	from approved list	Physical Science elective	3.0		<u>7th Semester</u>
Core Enrichment: Electives				Religion Cornerstone course	2.0		Arts or Letters elective
Religion Electives	3-4	6.0	from approved list	Total Hours	14-15.0		Major elective
Open Electives	Variable	Variable	personal choice	<u>4th Semester</u>			General electives
Graduation Requirements:				General elective	3.0		Religion elective
Minimum residence hours required		30.0		Civilization 2 elective	3.0		Total Hours
Minimum hours needed to graduate		120.0		Global & Cultural Awareness elective	3.0		15.0
				Major elective	2.0		8th Semester
				PWS 305	3.0		BIO 450 or PWS 490 or PWS 494R
				Religion cornerstone course	2.0		Major electives
				Total Hours	16.0		General Electives
							PWS 491R
							Total Hours
							14-15.0

Note: Students are encouraged to complete an average of 15 credit hours each semester or 30 credit hours each year, which could include spring and/or summer terms. Taking fewer credits substantially increases the cost and the number of semesters to graduate.

Note: The above course of study provides a guide in planning. However to meet special needs and interests of each student the courses taken and the order in which they are taken may require alteration. Study the requirements, plan a course of study, and consult with an advisor early in the program. This will save considerable time and minimize frustration.

BS in Environmental Science (285824) 2017-2018 Program Requirements Cont...

PWS 419 - Forest Management and Ecology	3.0
PWS 431 - Plant Health Diagnostics	3.0
PWS 440 - Plant Physiology	3.0
PWS 505 - Aquatic and Terrestrial Biogeochemistry	3.0
PWS 511 - Environmental Biophysics: Soil and Plant Water Relations	4.0
PWS 540 - Plant Response to the Environment	3.0
PWS 551 - Quantitative Ecology	3.0
PWS 553 - Restoration Ecology	3.0
PWS 560 - Quantitative Environmental Chemistry	2.0

FEDERAL REGISTER REQUIREMENTS: *The federal register requirements for environmental science ecology or physical science emphasis can be met by choosing appropriate electives. Ecology requires 30 semester hours of basic and applied biology, including at least 9 semester hours of ecology and 12 hours of physical and mathematical sciences. Physical science requires 25 semester hours of physical sciences (chemistry, physics, math, etc.).*

THE DISCIPLINE:

This degree educates and trains students in the fundamentals of biogeochemistry, ecology, and biology relating to soil and water conservation, quality, and pollution. Through core courses and environmental labs, students will understand the science, politics, and ethics behind current problems facing the environment—locally, regionally, nationally, and globally; learn and practice effective research techniques in field and lab settings (i.e., testable hypotheses, utilization of the scientific method, and environmental testing procedures); and conduct and design basic environmental quality measurements and site assessments. We strive to help students foster and promote environmental stewardship within their own realms of influence.

CAREER OPPORTUNITIES:

Bachelor's Degree: environmental compliance inspector, natural sciences manager, environmental scientist and specialist, hydrologist, NEPA planner, recycling solutions associate, environmental site assessor, environmental consultant, ecological resource specialist, staff scientist, park naturalists, fish and game officer, range manager, water resource specialist, brownfield redevelopment specialist and site manager, environmental restoration planner. Master's Degree: environmental business consultant; natural resource and conservation consultant/scientist; principal soil consultant, principal water consultant; environmental, soil, or water scientist for local, state, or national governmental agencies [i.e., Bureau of Land

Management (BLM), Natural Resource Conservation Service (NRCS), United States Environmental Protection Agency (EPA), United States Department of Agriculture (USDA), United States Department of Energy (DOE)]. Doctorate Degree: professor of natural resource and conservation, senior water or soil natural resources scientist.

HANDS-ON LEARNING OPPORTUNITIES:

Students are encouraged to seek mentored research opportunities early as part of PWS 494R: Mentored Learning Experience and participate in the multiple study abroad programs (China, Africa, South America, and South Pacific-Australia) organized by the Environmental Science faculty.

FINANCING:

Scholarships are available for qualified students from the department, college, and university.

ENVIRONMENTAL SCIENCE CLUB:

Environmental Science majors participate in the BYU Environmental Science Club. The club is student lead and organizes career network and educational opportunities in fun, social, environmental settings. Fund-raising efforts support educational and networking trips every semester.

MAP DISCLAIMER

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
