Most applicants apply to the BYU Marriott School of Business the summer after their sophomore year. Each program starts at the beginning of a new academic year.

- Deadline to apply for Fall is the last working day of June by 4:30 p.m.

*Required to be taken after all TR requirements are completed.

The sequence of courses suggested may not fit the circumstances of every student. Students should contact their advisement center for help in outlining an efficient schedule.

Students are encouraged to complete an average of 15 credit hours each semester or 30 credit hours each year, which could include spring and/or summer terms. Taking fewer credits substantially increases the cost and the number of semesters to graduate.

Students are advised to take STAT 121 to fulfill their Languages of Learning general education requirement.

First aid and CPR certification must be obtained before completing the TRM 496R internship experience.

Most agencies now require therapeutic recreation specialists to be certified through the National Council on Therapeutic Recreation Certification (NCTRC). Students should consult the NCTRC candidate information at www.NCTRC.org to ensure eligibility to sit for the certification exam. To practice in the state of Utah, the law also requires a licensure exam above and beyond the NCTRC certification.

**THE DISCIPLINE**
Therapeutic recreation students learn how to use recreation as a treatment modality to help people with illnesses and disabilities improve functional behavior, develop skills and abilities related to leisure and wellbeing, and improve quality of life. They accomplish this through therapeutic interventions using arts and crafts, outdoor recreation, sports, games, dance, drama, music, or community outings. Therapists also help integrate people with disabilities into society by teaching them how to use community resources and recreational activities.

The foundational business courses provided by the TR program in the BYU Marriott School of Business prepare our students for upward mobility into leadership positions, providing a unique competitive advantage over other programs across the country.

**CAREER OPPORTUNITIES**
Graduates of the TR program are eligible for national certification and state licensure as recreation therapists. They work in a variety of settings, including centers for physical rehabilitation, behavioral and emotional residential treatment, eating disorders, drug and alcohol rehabilitation, adaptive sports, and assisted living. They also work in spinal cord and head injury accredited facilities, corrections, wilderness and adventure therapy programs, parks and recreation programs, schools, community centers, long-term care facilities, youth programs, community-based recreation programs for people with disabilities, and other centers.
