**Recommended Courses:** It is recommended that students take Econ 110 and Fin 201 to complete the Society of Actuaries Economics and Corporate Finance VEEs. Additionally, IS 515 and IS 520 are exceptionally valuable in the daily work of an actuary.

---

**ACTUARIAL EXAMS:**

Actuaries are required to demonstrate their proficiency by passing a series of competency exams offered by one or more of the principal actuarial societies. It typically takes 6-10 years to pass all of the exams; virtually all actuarial interns are required to have passed at least one of these exams as a condition for employment. The BYU Actuarial Science degree provides students with the opportunity to study significant portions of the material covered in the first five exams offered by the Society of Actuaries and accepted by the Casualty Actuarial Society (the two major actuarial societies in the United States).

The correspondence between the actuarial exams and available BYU course work is roughly as follows:

- **Exam P:** Stat 240, 340, 372 (full coverage)
- **Exam FM:** Stat 274 (full coverage)
- **Exam MFE:** Stat 377 (about 90% coverage)
- **Exam MLC:** Stat 475 (about 50% coverage)
- **Exam C:** Stat 240, 340, 477 (about 90% coverage)

In addition to the exams the societies accept the following set of courses for the Validation by Educational Experience (VEE) credit:

- **Applied Statistical Methods VEE:**
  - Stat 330 (has Stat 230 prereq.)

---

**CAREER OPPORTUNITIES:**

Actuaries enjoy excellent job security, high incomes, and a low-stress work environment. Careers in actuarial science are consistently ranked among the top three professions. Competent actuaries are highly recruited and can have many professional opportunities.
Economics VEE: Econ 110

ADVISING:
SAS Certified Base Programmer and SAS Certified Advanced Programmer. Students can take the SAS Certification exams after completing Stat 124 and 224. Information and exam registration is available at http://support.sas.com/certify/creds/index.html. SAS/BYU Applied Statistics and Advanced SAS Programming Certificate. Students who earn a B or higher in the applied and computing core classes (Stat 124, 224, 230, 330, 381) are eligible to receive a certificate jointly issued by SAS and BYU which can be listed on a resume. More information is available at http://statistics.byu.edu/content/sas-certificate-opportunities.
