Note: Latin American Studies or Spanish Studies minors: Spanish 321, 339, 345 or 355, and 441 or 451 meet requirements for both the Spanish major and the area studies minor. Only one of these courses may be double-counted (applied to both the major and the minor). Students wishing to complete a Spanish major and one of these area studies minors must take an additional 6–9 hours chosen from the approved electives for either major or minor. Consult the department and the advising center for clarification of the choices available to you.

THE MAJOR:
The Spanish Studies BA (2nd major program) provides comprehensive language instruction for students and an introduction to the literature and culture associated with Spanish, as well as tools for analyzing the language itself. Based on the liberal arts tradition, the Spanish Studies major is designed not only to improve students' communication skills but to acquaint them with Hispanic linguistics, literature, and culture. The major serves the needs of students who plan to enter a variety of fields, including business, medicine, law, government service, teaching, and graduate studies in literature, culture, linguistics, and pedagogy. It requires the development of communicative skills in the Spanish language as well as skills of close reading, literary and cultural analysis, the employment of tools of linguistic analysis, and the cultivation of strong writing skills. The major is intended to help students cultivate lifelong habits of reading and study, as well as provide them with practical tools for serving and working among a Spanish-speaking population.
