Note: Students are strongly encouraged to work with their mentor to identify a group of related courses (or minors) in other departments which will provide skills and post-graduate preparation.

THE DISCIPLINE:

The Media Arts Studies program produces students with a strong liberal arts foundation that can be used effectively in a variety of film-related careers or graduate studies. Graduates are generalists with skills and proficiencies that can be used in multiple venues including emerging media environments.

Students master knowledge of film culture, history, and theory; develop general and specialized skill sets; and utilize processes that integrate professional practices, generate creative applications to new situations, and support collaboration in multiple settings. Core curriculum of critical studies develops analytical skills and creates a foundation for application and experimentation; a wide range of electives allows additional emphasis in critical studies, fiction or non-fiction (documentary) production, or other specialized areas.

THE EXPERIENCE:

The Media Arts Studies program is designed to foster disciplined scholars and artists, committed to the gospel of Jesus Christ, whose skills and conduct are models of leadership, inspiration, and achievement.

This degree is designed to produce graduates with practical skills, intellectual attributes, and spiritual awareness to assist themselves, their families, and others in "their quest for perfection and eternal life."

Participation in faculty, graduate-student, and undergraduate-student directed theatre and media arts projects provides the best possible forum for growing skills.

FINANCING OF EDUCATION:

The Media Arts Studies program offers assistantships in the classroom as well as the Media Arts Labs (MAL) for proctors, assistant managers, and facility managers. Merit scholarships are also available to continuing students. Contact the Theatre and Media Arts Department for more information.

FACILITIES:

The Media Arts Studies program has multiple student production facilities. The TMA open computer lab provides beginning students with access to digital production and editing facilities. The Media Arts Lab (MAL) provides advanced sound and image editing stations. The MAL Checkout provides advanced film and digital camera, lighting, and sound production equipment, as well as advanced post-production sound and editing facilities. Our department also affiliates with the LDS Motion Picture Studio and BYU Broadcasting.

CAREER OPPORTUNITIES:

The Media Arts Studies program provides a foundation and basic experience in analyzing, conceptualizing, writing, directing, and collaboratively producing non-fiction, fiction, and interactive media.

Apprenticeships on-campus and internships off-campus are available.

See faculty advisor list in the TMA Office (D-581 HFAC) to learn more about each area of interest and their career opportunities.

MAP DISCLAIMER

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
