Note: Check with department for current availability of all courses.

Note: Students are encouraged to complete an average of 15 credit hours each semester or 30 credit hours each year, which could include spring and/or summer terms. Taking fewer credits substantially increases the cost and the number of semesters to graduate.
The French and Italian Department requires a minimum of 15 major hours to be taken in residence at BYU for this degree program. These hours may also go toward BYU’s 30-hour residency requirement for graduation.

Complete a minor (approximately 16-21 hours) or 15 hours of course work in an area approved by the major advisor. Courses must be approved before the senior year.

Students who need to strengthen oral skills should enroll in ITAL 211R and 311R.

It is strongly recommended that STDEV 317, a 2-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

**GENERAL INFORMATION:**

The Department of French and Italian strongly recommends that STDEV 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

**STUDY ABROAD/INTERNSHIP PROGRAM:**

All students of Italian are encouraged to participate in a Study Abroad or Internship program in Italy. The programs provide excellent opportunities for developing language proficiency and better understanding of the history and culture of Italy.

**PROGRAM LEARNING OUTCOMES:**

1. **Linguistic Ability:** Successful students will place at least at the “Advanced” range in Italian speaking, listening, writing, and reading on the ACTFL Proficiency Scale.
2. **Research:** Students will analyze the literature, language, and culture of Italy drawing upon their ability to locate and consult relevant primary, critical, and theoretical sources.

**THE DISCIPLINE:**

The study of Italian language and literature sharpens analytical and communicative skills. Students develop proficiency in listening, reading, writing, and speaking, and they learn to use literature as a means to discover and broaden their understanding of culturally specific as well as universal issues and values.

**CAREERS:**

Italian is a valuable research and communication tool for students in music, art, history, European studies, international relations, library science, and comparative literature. Many have chosen a major or minor in Italian in addition to a second major or minor in an area such as accounting or business management, or as preparation for professional programs in public administration, business administration, organizational behavior, dentistry, law, or medicine. Many students have opted for a career in government service, working with an embassy, the State Department, the CIA, and other government agencies. Other students have gone into travel and tourism, working with tour agencies, airlines, major hotel chains, or resort communities. The computer industry also provides employment opportunity. Many computer companies have expanded into foreign markets and hire people who can translate computer equipment and software instruction and sales publications in a foreign language.

**MAP DISCLAIMER**

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
